

Updated Mask Requirements Effective 1st September 2021

The Louisa Arts Center is committed to providing a safe and healthy environment for all patrons, guests, volunteers and staff.

With the rise in COVID-19 cases due to the Delta variant, and in coordination with other performing arts venues in the area, we are following the CDC recommendations and updating our COVID-19 policy to the following:

From Wednesday 1st September the wearing of masks will be mandatory for all individuals inside the Arts Center, regardless of their vaccination status. At events individuals may pull down their masks to take a drink in the foyer at a distance from others, but drinks will not be allowed to be taken into the Theatre

Masks are still required for children coming into the Arts Center and for staff, instructors, and volunteers engaged in activities with the children
